

Stamparatus Helpful Information

Supplies in the box

1. Stamparatus base 8" x 8"
2. foam insert – to be used for photopolymer only, you may wish to use a silicon mat in addition to the foam mat
3. 2 stamping plates (4 sides)
4. 2 Rare Earth magnets (extremely fragile and extremely magnetic to each other)
5. Instructions: warning a) closing with both plates on device, b) magnets will NOT be replaced and expected to be in new annual catalog

Why purchase a Stamparatus?

1. Don't get enough ink on the stamp the first time? Perfect, add more ink and stamp again! Second chance stamping
2. Great for 2-stamp or 3-step stamping for lining up of images perfectly and with ease
3. Great for making multiple cards with same design like swaps, invitations, holiday cards
4. Perfect for repeat or step stamping
5. Fabulous for multiple image stamping

Helpful Info

1. Reference document with equipment and smart code
2. Not to be used with wood-mount stamps, unless unmounted
3. Use ink spots: sets of 4 in catalog or uninked and add colors
4. Ruler on base for reference
5. Use silicon mat, as needed
6. Stabilizing feet so it won't move around
7. 4 stamp sides, interchangeable and acrylic for easy cleaning
8. Grid lines on stamp plates and bottom surface
9. Use foam pad only with photopolymer, not needed for red rubber stamps
10. Use stamp case under inking plate for better inking and stability
11. Use Duct tape on magnets for handles for ease and pulling up
12. Additional magnets will be available in 2018-19 Annual Catalog and on Amazon until then
13. Can be used with left-handed and be turned in any direction for ease.
14. Don't get ink on hinges, will transfer to hands and paper.

Things to know:

1. DO NOT GET MAGNETS CLOSE, extremely strong and extremely fragile, use 1 magnet at a time or keep them more than 3"-4" apart, do not set on table or they will come together and explode.
2. When storing, only attach one plate at a time, cannot close without breaking
3. Use grid paper for reference and over stamping
4. Best \$49 you will spend as a stamping tool!
5. Will be available for purchase in 2018-19 Annual catalog (June) or May for Demos

Who is a good candidate for this device?

1. Any stamper, period!
2. Stampers with shaky hands.
3. Stampers with strength or grip challenges.
